pour la douleur chez les enfants

Pain Fact of the Month

Patients, families, and healthcare providers should all work together to make children's pain better understood

A patient needs their family, friends, and teachers to support them with their pain

Healthcare providers should be trained to treat pain without stigma

We always need to take children's chronic pain and pain treatment seriously

The latest research on pain needs to be available and understandable to patients and families

Patients should receive thoughtful and kind pain treatment plans that are easy to understand
